Rapport fra virksomheten

Allerede ved åpningen av Furuset idrettsforenings idrettsanlegg Furuset Forum i 1998, ble det inngått en samarbeidsavtale mellom Bydel Furuset og Idrettsforeningen om utvikling og drift av Regnbuen Arbeids- og Aktivitetsforum (Regnbuen).

Denne ble videreført etter bydelreformen og Regnbuen har i dag et nært samarbeid med bydel Alna ved:

- Ressurscenter for arbeid og integrering (RAI)
- Seksjon for psykisk helsearbeid
- Enhet for mennesker med funksjonshemming
- Enhet for Ungdom og kultur
- NAV, Alna

om lokal satsning på aktive tiltak innen sysselsetting, opplæring og kvalifisering.

Mål

Våre målgrupper er personer med psykisk utviklingshemning, psykiske lidelser, og ulike grupper arbeidsledige som trenger alternative arbeidsoppgaver i form av arbeidspraksis, atferingsplasser og «arbeid for sosialhjelp».

ervert kompetanse innen ung lederskap og frivillig arbeid.

Vedkommende har vist stort engasjement,
og anses herved som

UNG LEDER

Unge ledere fremstår som rollemodeller for sine jevnaldrende.

De tildeles tillitsverv og lederroller blant ungdom ved frivillige aktiviteter,
lokale tiltak for barn og unge og i bydelsvise arrangementer.

Alnaskolen

Profitable for Norway

- Finding solutions to real challenges in giving multicultural youth the opportunity for participation and involvement
- (The number of immigrants living in Norway in the future will vary depending on alternative population projections in 2012 as a basis. According to the main option there will be around 1.3 million immigrants in Norway in 2050. This represents 20 percent of the population.)
- Reducing the risk of exclusion in different areas of our society
- Making strategies for empowering people in our communities that are set aside for various reasons
- Helps prevent forced marriages; creates positive attitudes and cultural awareness among tomorrow's parents
- Provides expertise and increases the commitment of a new generation of volunteers
- Creates close relationships with various minority communities and networks
- Can capture the (and convey) early signs of extremism and radicalization

Profitable for Alna and Oslo

- The district shows a national social responsibility – «Look to Alna»
- Creates opportunities for jobs for youth
- Gives positive effects for local government, private and public sector
- Identifies, trains and empowers young role models
- Youth establishes contacts and creates networks in relation to various types of employment
- Increases the competence of the district's youth
- Gives a positive reputation
- Starts creative processes that may contribute to the district's own development
- Prevents racism, prejudice, crime and radicalization through inclusion and joint efforts
